

Cornell University
Center for Advanced Computing

Welcome!

**High-Performance Computing on Stampede
Introductory and Advanced Topics**

January 14-15, 2015

Cornell Center for Advanced Computing (CAC)

- Mission:
 - To Enable the Success of Cornell Researchers, Collaborators, and Supporters whose Work Demands Advanced-Computing Solutions
- Organization:
 - Cornell core facility
 - Staff of expert consultants, systems administrators & programmers
 - CAC Director reports to the Office of the Vice Provost for Research
- National Cyberinfrastructure Partnerships:
 - NSF XSEDE – *Extreme Science and Engineering Discovery Environment*
 - NSF TACC Stampede – *Petascale Computing*
 - NSF Jetstream – *A cloud for science and engineering research*

Cornell CAC: Focused on Service

Consulting

- Assist with new faculty start-up packages
- Benchmarking & performance analysis
- Proposal development & participation
- Custom programming, debugging, parallelization & optimization
- Development and support for scientific workflows
- Custom training > live & web-based
- Strategic partnerships > vendors, national CI, researchers

Computing

- High-performance computing
- Cloud computing

Data storage and management

- Scalable disk storage & archival storage
- Database resources

Workshop Logistics

- Refreshments
 - Morning and afternoon breaks provided
 - No food or beverages permitted in training room
 - Lunch on your own
- Room access
- Restrooms

Workshop Web Page

<http://www.cac.cornell.edu/education/training/StampedeJan2015.aspx>

- Agenda
- Lecture slides
- Links
- Evaluation survey will come from XSEDE

High Performance Computing on Stampede

Introductory Topics -- January 14, 2015 [Register](#)
Advanced Topics -- January 15, 2015 [Register](#)

Center for Advanced Computing

1. Orientation

Orientation

- [XSEDE](#) – Extreme Science and Engineering Discovery Environment
 - Cyber infrastructure funded by NSF; a single virtual system
 - ~15 supercomputers & high-end visualization and data analysis resources.
17 partner institutions
- [TACC](#) – Texas Advanced Computing Center
 - [Stampede](#) – Dell Linux cluster
 - [Wrangler](#) – Data Analytics System (coming soon)
 - [Maverick](#) – HP/NVIDIA Interactive Visualization and Data Analytics System
- [CAC](#) – Cornell Center for Advanced Computing
 - [HPC Systems](#) – general use and private clusters
 - [Red Cloud](#) – on-demand research computing service

XSEDE Partner Institutions

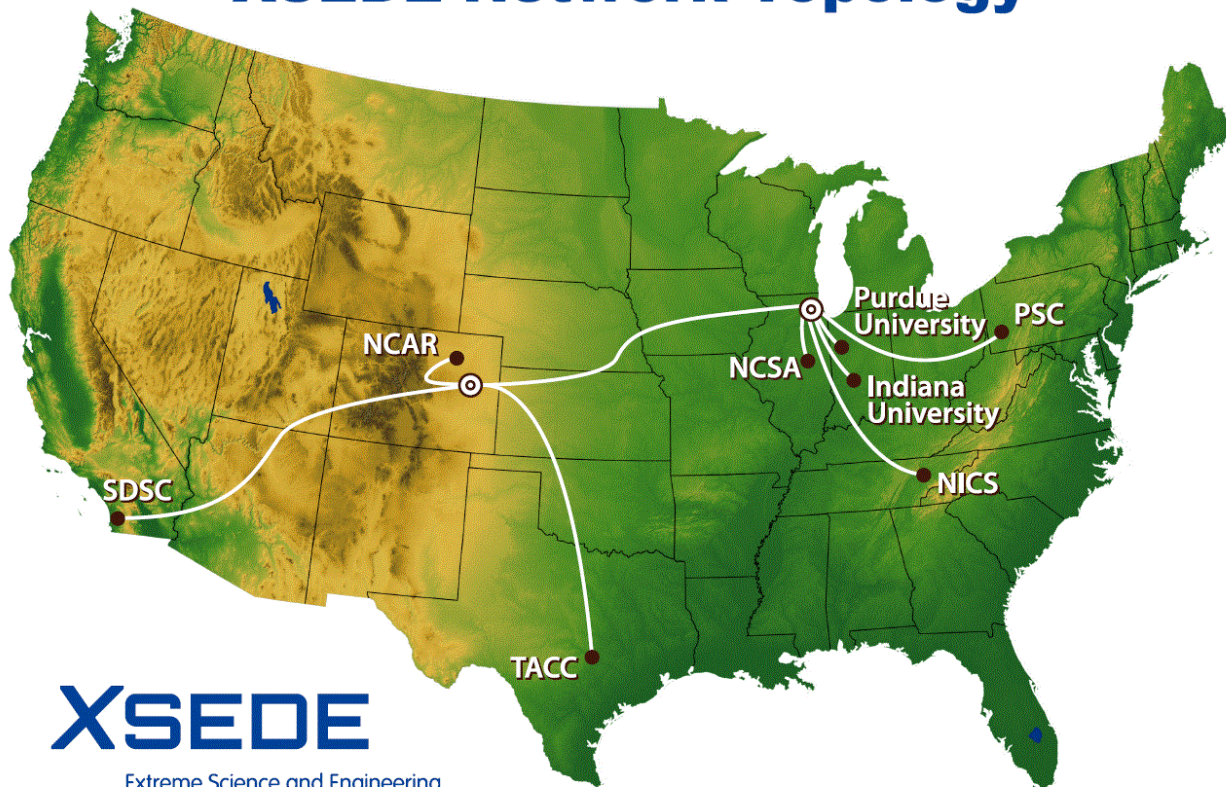

110311

XSEDE Resources

www.xsede.org/resources/overview

Overview

XSEDE is composed of multiple partner institutions known as Service Providers or SPs, each of which contributes one or more allocatable services. Resources include High Performance Computing (HPC) machines, High Throughput Computing (HTC) machines, visualization, data storage, testbeds, and services. This page provides a detailed list of XSEDE computing resources at each of the partner sites with links to detailed specifications for each machine. For more information, click on the machine name and user guide link to get more information about that specific resource.

Compute Resources

Name	Site	Manufacturer / Platform	Machine Type	Peak Teraflops	Disk Size (TB)	Availability
Stampede User Guide	TACC	TACC Dell PowerEdge C8220 Cluster with Intel Xeon Phi coprocessors (Stampede)	Cluster	9600.0	14336.0	Production through 2017-01-05
Comet User Guide	SDSC	SDSC Dell Cluster with Intel Haswell Processors (Comet)	Cluster	2000.0	7000.0	! Coming Soon

2. Accounts and Allocations

Computing Accounts

- Workshop/training accounts
 - Access to stampede.tacc.utexas.edu
 - ssh required
 - Account will be deleted after one week

- CAC Services
 - PI may set up projects for
 - compute time
 - consulting time
 - Maintenance
 - Storage
 - Red Cloud
 - <http://www.cac.cornell.edu/services/>

Campus Champions

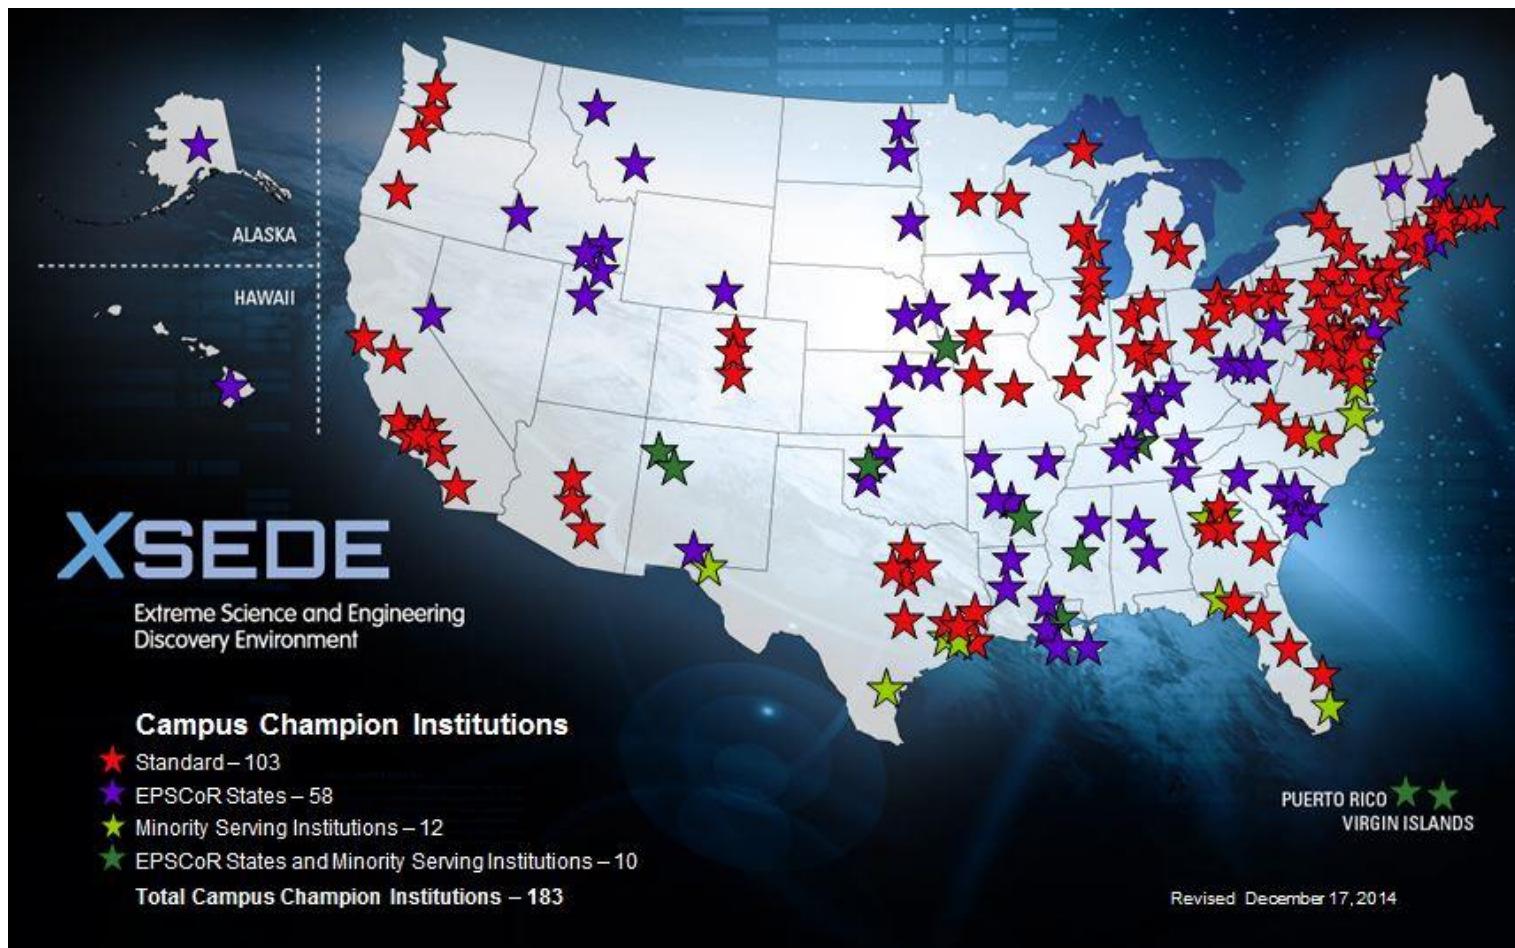

- The Campus Champions program supports campus representatives as a local source of knowledge on XSEDE resources.
- Contact your Campus Champion for
 - Trial allocation
 - Information on XSEDE and cyberinfrastructure resources
- Cornell's Champion:
Susan Mehringer
shm7@cornell.edu

Campus Champions

XSEDE Allocations

Allocations provide computing, storage, and support services.
<https://portal.xsede.org/web/guest/allocations>

- Startup – for testing and preparing allocation request
 - Up to 200,000 core-hours, for 1 year
 - Submit Abstract, Awarded every 2 weeks
- Research – usually for funded research project
 - No specific limit of core-hours you can request, for 1 year
 - 10 page Request, Awarded quarterly
 - Form only available during open submission period
- Education – for classroom instruction and training sessions
 - Up to 200,000 core-hours, for 1 year
 - Submit CV and abstract, Awarded/2 weeks
